

Chloe Trevor

DIRECTOR

Chloe currently holds a Bachelor of Human Services, Master in Social Work and a Master in Business Administration. Chloe initially spent five years working in the non-for-profit sector as an accredited social worker providing case management support to Veterans and their families. It was in this role that Chloe discovered her passion for program development, strategic decision making and value creation. Chloe eventually worked in a leadership capacity focused on creating a consolidated community services program and understanding the operational components of the non-for-profit sector. Chloe also developed an interest in Occupational Health & Safety during this time.

Chloe is now working full-time in a Government role as a clinical care coordinator. Her passion for the non-for-profit sector is still stronger than ever. Chloe believes firmly in Fernlea's mission and has joined the board to support their important work within the community.
